

EOX Commercial Attribution-RestrictedUse 1.1 License Deed

This is a human-readable summary of (and not a substitute for) the license.

Disclaimer. This deed highlights only some of the key features and terms of the actual license. It is not a license and has no legal value. You should carefully review all of the terms and conditions of the actual license before using the licensed material.

This commercial license is based on the Creative Commons Attribution 4.0 International Public License (CC-BY). The main change over CC-BY is that EOX grants the right to use the licensed material but not to directly share or redistribute. You're entirely free to use the licensed material within or in association with your specific service or product but we reserve the right to provide the licensed material with this license.

You are granted to:

Use

You may integrate or utilize the licensed material within or in association with your specific service or product. Use includes the distribution or making available of your product to your customers.

Examples are:

1. your website or app integrating the licensed material like an interactive online map integrated into your website or app to be used by your customers/users
2. your software package integrating the licensed material, e.g., a standalone software like a GIS, an app, or a web server which is shipped by you for installation on hardware of your customers/users or which is pre-installed on hardware that is shipped by you to your customers/users

Adapt

In your use you may remix, transform, and build upon the licensed material.

Under the following terms:

Attribution

You must give appropriate credit and indicate if changes were made. You may do so in any reasonable manner, but not in any way that suggests EOX endorses you or your use unless agreed in writing.

You must provide the name of the creator and attribution parties and a copyright notice.

RestrictedUse

You may use the licensed material in whole or in part in your own service or product but you may not directly redistribute the licensed material to third parties.

Notices:

EOX cannot revoke these grants as long as you follow the license terms.

No warranties are given.
